the public generally.

THE ONLY CAMPBELL—COMING—Mordor &  
Hernandez's Campbell Minstrel will return here  
and give only one Concert, at Huston Hall, on  
to-morrow evening. Our citizens are aware  
that this Troupe is No. 1, having had a taste of  
their quality. They will have a lot of new ex-  
tra to present our citizens, and all who wish to  
spend a pleasant evening will go to Huston  
Hall and take a course of hearty guffaws.

The Campbells, on their former visit, sufficiently  
advised themselves as a tip-top troupe. Her-  
nandez is a whole troupe of himself.

FRUITS OF THE GAME LAW.—The fruits of  
the game law are being seen and felt throughout  
the State. This spring the songsters of the  
fields and forests are making as frequent visits,  
and our trees every morning are made vocal with  
wild-wood music. The "robin red breast," and  
the long list of feathered vocalists, whose sweet  
notes were wont heretofore to cheer us only in  
the forests, seem "intuitively" to understand  
that they are protected by law! They seem to  
know that they are as secure within the city  
limits as in their natural fastnesses; and having  
acquired a liking for city life they have deter-  
mined on visiting us daily.

We do not know exactly what effect the game  
law has had in other portions of the State; but  
in the glorious valley of the Great Miami, it  
has worked like a charm; and the strictness  
of its observance speaks volumes for the char-  
acter of our people. Strange as it may sound  
to the bird destroyers of other places, we in-  
form them that a whole family of quails have  
taken up a city residence in the grounds of Dr.  
Langston, on west 34 street. They are to be  
seen bob-whisking about the yard, and are be-  
come quite tame. The Doctor also has an  
"aquarium" on his premises, in which are  
several varieties of fish, and they have greatly  
increased within the last year. If it could be  
a little more extended, it would supply the Doc-  
tor and his friends with bass, sunfish, and other  
varieties of fish for table use.

A NEW STREET IN THE "CITY OF THE DEAD."  
An improvement is being projected in Wood-  
land Cemetery, which will not only be a great  
convenience, but will add to the appearance of  
the grounds. A carriage road is to be made  
from the Public Vault, at the west side, along  
the main "quadrant," or below, up through the  
grounds to the east side of the Cemetery, and  
connect with the main road in the "addition."

A stone arch is to be built over the "quadrant"  
for the track, which now passes west of the  
Public Vault, to the north side of the Cemetery,  
and the projected road will pass under it. The  
workmen are already at work upon the road,  
and it will be completed as soon as possible.

The new carriage track will be a charming  
drive through the wildest and most picturesque  
portion of this "beautiful city of the dead."

THE Military Festival and grand Com-  
memorative Prize Fencing Tournament, to be given  
Capt. De Rue by his pupils, at Huston Hall, on  
next Monday evening, May 16th, will be the  
most interesting and brilliant entertainment  
ever given in the West. In conjunction with  
the Festival will be given an instrumental con-  
cert, by a full band, under the direction of Geo.  
W. Pearson. The concert alone will be a fea-  
ture worth double the price of admission. Pro-  
ceeds from the concert will be for the benefit  
at Market Book Store, and at the Jewelry Store  
of John Sherwood.

STATE OF OHIO vs. Geo. A. McLain.—This  
case, which has been undergoing examination  
for several days, was finally disposed of yester-  
day afternoon. The jury last week found Mr.  
McLain guilty of selling liquor contrary to  
statute, and his counsel moved for a new trial.  
After a lengthy argument yesterday from the  
parties, Judge Baggett overruled the motion  
and sentenced the defendant to pay a fine of \$50  
and costs of prosecution. This is the result we  
predicted.

THE Barley in the Miami Valley is "head-  
ing," and is considered "heavy." The crop  
will be assured, be considerably above aver-  
age. The wheat is about two feet high,  
stands thick in most fields we have seen, (es-  
pecially where it has been drilled in), and the  
"head-joints" have already started out. The  
yield will be great, unless some unforeseen mis-  
fortune should yet fall upon it. The oats are  
coming on finely, and never looked better at  
this season of the year.

GO TO Langdon's for fishing tackle. They  
have everything in the line that is necessary for  
river, pond or lake fishing. Their assortment  
of lines, reels, patent rods, etc., is complete,  
and comprises the very best qualities. Call in,  
at 78 Main street, and examine their ample  
stock.

THE prospect for a heavy crop of wheat  
this coming harvest, will doubtless cause a  
rise upon the price of flour. The sooner the better  
for those who have considerable difficulty in  
procuring the money to pay for the "dust" at  
present exorbitant prices.

**War Commenced!**

The files of European journals, just ar-  
rived by the steamer "Adelaide" establishes  
the fact that the Austrians have actually  
crossed the Ticino, and invaded Sardinia!

War, then, has begun; where it will end,  
cannot be told. It is probable that before  
it will be ended, the principal powers of  
Europe will be engaged in the sanguinary  
strife. The destruction of human life will  
be terrific. By the next steamer we will  
possibly hear some details of the bloody  
war. In the mean time, we should be  
prepared to maintain peace on this side of  
the great waters.

HEREDITY OF THE I. O. S. OF M.—At a  
celebration of the Sons of Malta, at Syracuse  
New York, are the members departed, the  
following benediction of the Order was pro-  
nounced by the Grand Chancellor:

May the fragrant dews of Heaven, such  
as were distilled upon the saintly head of  
Aaron, descend in love upon the members  
of this Order, may the beautiful roses of  
Sharon blossom thick upon their paths; may  
they be filled with all good things; may they  
be sustained amid their labors and comforted  
amid their toils; may angels watch their  
sleep; and may the love of country, which  
of all love is the sublimest, and the grace of  
charity, which of all graces is the best, be  
increased and nourished within us all, until  
every type of oppression shall vanish, every  
trace of suffering shall be removed, and the  
whole family of man shall be united in one  
harmonious and universal brotherhood.

The brethren solemnly responded, "So  
mote it be."

THE NEW COMMISSIONER OF INDIAN AF-  
FAIRS.—Judge Greenwood, of Arkansas, the  
new Commissioner of Indian Affairs, is a  
Georgian by birth, and is close on half a  
century as regards years. A lawyer by pro-  
fession, he, when a young man, emigrated to  
Arkansas, and been successively a member  
of the State Legislature, Attorney-General,  
Circuit Judge, and, lastly, Representative in  
Congress from 1853 to '78. His claims to  
the office to which he has just been appoint-  
ed is that he served during a portion of his  
Congressional career as Chairman of the  
Committee on Indian Affairs.

MORMON MORMONS FOR MORMONISM.—On  
Wednesday last, Rochester had a sight of  
some one hundred and thirty foreign Mor-  
mons who were passing through there on  
their way West to the city of the Saints.

This party was composed chiefly of females,  
many of whom were young and tolerably  
fair. They were from England and Wales,  
and were attended by Elders, who took good  
care that none of the lambs strayed from  
the flock. The party were not disposed to  
hold conversation with the "Gentiles," and  
had, doubtless, been advised to preserve the  
silence they maintained.

Van R. Gilbert, M. D., a fine looking,  
and rather distinguished man of Independence,  
Mo., was arrested in St. Louis, on  
Tuesday last, on a charge of bigamy. He  
had been living for some time happily with  
the second Mrs. Gilbert, and was in St. Lou-  
is arranging to establish a daily paper in  
that city, when Mrs. Gilbert No. 1 came on  
from New York, with her two children raised  
a "family row," and the Doctor was ar-  
rested in obedience to a telegraphic dispatch.  
He explains the matter by saying that the  
newly arrived Mrs. Gilbert was not exactly  
Mrs. Gilbert.

THE ITALIAN PENINSULA.—Italy is about  
as large in territory as three such States as  
Ohio. It contains twenty-five millions of  
people. The largest Italian State is Naples.  
It occupies more than one-third of the Pen-  
insula, and contains ten millions of people.  
The Pope rules over about three millions of  
people. The State of Tuscany has about  
two millions of people, and Parma and Mo-  
dena one million of souls. Sardinia has a  
population of about five millions, and is  
nearly the size of South Carolina. The  
States of Lombardy and Venice belong to  
Austria in sovereignty, and contain five mil-  
lions of people. The governments of all  
these States are under Austrian influence,  
except Sardinia.

THE New York Tribune gives prominence
